

JPFA Workshop Lists No.142-153

Japan Plant Factory Association

No.	Date	Venue	Thema	Title	Lecturer	Organization of Lecturer	Video	Language
<b>2022</b>								
151	18-Nov	Webinar	Towards the Next Generation Plant Factory - The Latest Developments in the World - Automation, Plant Phenotyping Technologies, and More Cordinator: Eri Hayashi	Plenty: Innovation with Lighting, Automation, and Sensing Technologies for Improving Energy and Labor Efficiency, and Optimization	Nate Storey	Plenty	○	EN
				The Latest Developments in Plant Factory Technologies and Business in the World	Eri Hayashi	Japan Plant Factory Association	○	JP
				QA			×	
148	1-Jun	Webinar	The Latest Developments of Plant Factories in Europe Cordinator: Eri Hayashi	Vertical Farming in Europe and Planet Farms	Roel Janssen	Planet Farms	○	EN
				Infarm Crop Science - A trip through our research program and philosophy	Pavlos Kalaitzoglou	Infarm	○	EN
				QA			×	
<b>2021</b>								
145	15-Nov	Webinar	Production of Pharmaceutical, Functional and Other Materials at Plant Factories* ② Cordinator: Eri Hayashi	Environmental Control for High Value-Added Protein Production in Plants Using Transient Gene Expression Technology	Ryo Matsuda	The University of Tokyo	×	
				Production of Biopharmaceuticals and High Value Proteins in Plant Factories	Yuri (Jurijus) Gleba	Nomad Bioscience, Germany	○	EN
				QA			×	
142	9-Jul	Webinar	The Latest Developments in the United States in the Fields of Greenhouse Horticulture and Plant Factories with Artificial Lighting Cordinator: Eri Hayashi	The Latest Developments in the United States in the Fields of Greenhouse Horticulture and Plant Factories with Artificial Lighting	Chieri Kubota	The Ohio State University	○	JP
				Cannabis cultivation in controlled environments in the United States	Ian Justus	Connected Cannabis社	○	EN
				QA			×
